DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

ART REJECTION:

Claim Rejections - 35 USC § 103

2. Claims 1-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kulka et al.

-- Claims 1-20 recite subject matter that is met as discussed in the previous Office Action. Furthermore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to mount the electronic device and substrate outside of the mounting patch, or in any other location as desired, because one of ordinary skill would have readily recognized, that lacking any criticality, changing the location of the components in the system would have not have provided a patentable feature to the invention, system this would not have provided an advantage to the overall operation of the system.

REMARKS:

Response to Arguments

3. Applicant's arguments filed 5/18/2006 have been fully considered but they are not persuasive and have been addressed in the art rejection above.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 2612
